BACKGROUND INFORMATION: The Secretary of Labor's Commission on Achieving Necessary Skills (American 2000) and the district's "School-to-Career" plan, encourage collaborative efforts between schools and the workplace, such as the development of apprenticeship opportunities. Since 1993, approximately 75 percent of the 500 students participating in this program secured apprenticeship and graduation from the district.
Rationale for Ratification: Originally the contracts were submitted for July 13, 2004; however some of the language was incorrect and needed to be revised. Original signatures needed to be re-obtained so, September 14, 2004 is the first available board date.
