b. Actions to accept, budget, and spend income, in excess of that included in the adopted budget, are authorized by Education Code Section 42602. These actions provide the means by which the board of education can access income which becomes available to them after they have adopted a final budget. When such added income is available and a majority of the board is in agreement as to its use, the action to accept, budget, and spend the income is a routine action. It increases the budgeted appropriations in the amount of the added income and authorizes the expenditure of that income for the purposes designated in the resolution and supporting budget. The following items represent such resolutions for the purposes stated below:
