Office of the Superintendent

## Executive Summary Board Date: May 24, 2005

<b>SUBJECT:</b> Proposal for Adoption of Physiology 1,2 Textbooks and Instructional Materials for the 2005-2006 School Year	X	<b>OPEN/ACTION</b>
		<b>INFORMATION</b>
		<b>CONSENT</b>

**Recommendation(s):** The Superintendent recommends that the Board of Education approve:

1. "Physiology 1,2 Instructional Materials Recommended for Adoption 2005-2006."
2. The Master Plan preliminary budget to support the purchase of the Physiology 1,2 recommended instructional materials, not to exceed \$250,000.

### Summary of Previous Board of Education Discussion and Action:

On March 8, 2005, the Board approved instructional materials adoptions for 25 courses to be implemented in the 2005-2006 school year. The proposal for adoption of textbooks and instructional materials for Physiology 1,2 was delayed while awaiting input from physiology teachers to determine whether they would be able to offer the course without an honors designation or if they wanted to design a second course. The teachers decided they did not want a second course and are satisfied with the adoption committee's recommended textbook and instructional materials.

### Summary of Key Issue(s):

Physiology 1,2 instructional materials recommended for adoption were reviewed by an adoption selection committee under the direction of curriculum resource staff and were found to meet applicable state content standards. All legal requirements have been met in accordance with State Education Code and District procedure.

### Fiscal Analysis:

Costs of \$250,000 are identified in this report and are available from categorical funds from the State of California, Proposition 20 lottery funds, and from an allocation from the district's unrestricted revenue limit income.
