Description

Balboa Elementary is the southwestern most school in SDUSD. Our school serves a diverse community of English Language Learners. Many neighborhood businesses advertise in Spanish. We have students from Russia, Sudan, the Congo, and the Philippines.

We focus on the development of essential skills in reading, writing, thinking, listening, speaking, computing, algebraic reasoning and problem solving. To ensure the success of our students we have several different programs supporting English language acquisition.

Our full time visual and dramatic arts programs provide authentic, hands-on language learning experience combined with artistic education. Upper graders participate in our instrumental music program. These programs are showcased during art gallery nights, student performances, and student plays

Our teachers are active learners, who collaborate weekly on grade level teams. Teachers refine instruction to supply the best education possible for our students. Staff actively engages in professional study in mathematic reasoning for all grade levels. In 2007 we received the Intel National Mathematics Award. This distinction provided us with \$150,000 worth of technology. We earned this recognition because of the strong mathematical instruction we strive to provide to our students.

Family involvement is encouraged with many different options and activities. We have two monthly meetings, coffee with the principal and family Friday. Grade level presentations to families are held three times a year to clarify student expectations. We offer English, nutrition, yoga and computer literacy classes to interested families.
