Description

Boone is an outstanding school where students come ready to learn and teachers excel in research-based teaching practices. We are diligent in our efforts to provide all students with a strong academic foundation on which to build their educational careers. Our teachers receive ongoing training in literacy and mathematical frameworks. Their sharing of resources and expertise benefits our students' learning. Our recent API scores are well above the District average.

At all grade levels, Boone teachers implement a rich, balanced literacy curriculum that aligns with California standards. Students learn to read and act as independent readers and self-directed learners, selecting books that match their reading levels and interests. They question, evaluate and apply skills and strategies modeled

and taught through the literacy approaches established in every classroom at the start of the year.

Our student population features a multiethnic mix of mainly Filipino, Hispanic, African and African-American students. All of our students come from the neighborhood, reflecting the diversity of our community. We learn from one another, and each culture is valued.

Special activities include our PTA-sponsored book fair, school beautification project, monthly principal-parent chats, school assemblies, guest speakers and after-school activities such as Mad Science and Girl/Boy Scouts. Proposition MM funds have enabled us to modernize Boone with a new two-story building, media center and technology upgrades.
