## Description

Marie Curie Elementary School, built in 1963, is located in University City, a community named for its proximity to UCSD. Our students are local residents or enroll through the Choice or VEEP programs.

We support our students' development into effective communicators, critical thinkers and self-confident, self-directed, lifelong learners. Daily blocks of literacy, mathematics and integrated social studies are provided. Art, music, and P.E. are enjoyed weekly. Curie students experiment with Foss kits in our inquiry-based science program. Our school continues to boast an API score well over 900 points.

Our emphasis on health and wellness, combined with hands-on activities in our two school gardens, contribute to a healthier and more active student population. Curie's gardens were developed through the efforts of a strong volunteer staff and dedicated science teachers. Our staff and PTA actively work together to provide a range of supports for the whole child.

We enjoy active partnerships with the La Jolla Hyatt Regency Hotel and Chase Bank. The University City Foundation for Public Schools (EdUCate!) supports and supplements classroom instructional materials through grants and the Teacher Wish List program.
