Description

Foster Elementary School opened in 1955. Our school is a focal point for the Allied Gardens community. Many of our current students have parents who are Foster alumni.

We have a strong veteran staff of teachers for our 23 classrooms. Foster is dedicated to the education of the total child. In addition to providing a strong academic program, the teachers and staff work with the students to develop their self-control. We teach students to demonstrate respect and consideration for the rights of others and to take responsibility for their own behavior.

The Foster community maintains high expectations for all of our members. An

important key to improving instruction in the classroom is staff development in utilization of the SBRC. Teaching strategies for reading and math is a major focus of staff development. Daily, weekly and monthly progress reports are kept on all students. Monthly principal and teachers meetings ensure all students progress to meet grade-level standards.

We strive to ensure that our parents, teachers and the community function as genuine partners in the education of our children. We provide a variety of opportunities to collaborate. We pledge to continue our work as a community of learners and involve all parties who can make a difference in our students' lives.
