Description

Elizabeth Freese Arts and Culture Magnet School endeavors to provide every child with the educational skills needed for academic and career success. Arts and culture are integrated with academic work to enrich learning and teach students a broader global perspective. Multiple measures are used to continually account for and improve student achievement. Approximately one-quarter of our students are identified GATE.

Freese implements a standards-based curriculum across all grade levels, utilizing the Standards Based Report Card (SBRC). Students explore topics with local artists, musicians, dancers and actors, on and off campus. Twenty-eight Partners-in-Education keep our magnet program enriching and lively.

Freese has a significant English Learner population: about 46 percent. During the

2007-08 school year, all classroom teachers and administrators were trained in Systematic ELD, the District-sponsored English Language Development program. By 2008-09, we plan to have Systematic ELD fully implemented schoolwide. One of several advisory groups, our English Learner Advisor Committee (ELAC) advises the principal and staff on the school's program for English Learners and Freese's Single Plan for Student Achievement (SPSA).

In addition to arts, culture, an emphasis on physical education, and a fun annual Geography Bee, we are also upgrading our technology so students can use on-line resources in their research. As a result of governance groups' support, every classroom now has four new workstations and almost every classroom is equipped with document readers.
