Description

The mission of Jefferson Elementary School is to develop internationally-minded students who, through a rigorous program of inquiry, become knowledgeable and caring citizens of the world. Located in the heart of the North Park community, Jefferson is an International Baccalaureate (IB) Programme candidate school.

The IB Programme was developed in Switzerland in 1968 to encourage students around the world to become active, compassionate, lifelong learners. In keeping with IB parameters, Jefferson teachers and students work diligently on units of inquiry. IB attitudes and the Learner Profile are incorporated into daily work. All students learn Spanish.

Jefferson's staff is committed to incorporating state standards with IB standards to provide a

rigorous and meaningful curriculum for our students. Our goals are many. We strive to improve student achievement in literacy and math through implementation of enhanced teaching practices, improved curriculum, extra assistance in math to low-performing students through an extended-day math program, use of push-in teachers, and reduced class sizes in grades 4 and 5. We avoid combination classes.

We provide rigorous staff development for our teachers to improve teaching practices and work to improve student behavior by providing a positive and challenging learning environment. In addition, we continue to strengthen parent and community involvement in a variety of ways. We also strive to improve the physical environment of our school site.
