**Per pupil allocation:**  
 \$7,253  
**Special Program Offerings**

- GATE
- DAC
- ELAC
- VAPA
- Title I
- Magnet Program in Science and Research

## Description

Webster Elementary Academy of Science and Research is located in a quiet neighborhood of predominately owner-occupied single-family homes, on the northeast edge of Southeast San Diego. Over half of our students come from outside the neighborhood.

We have beautiful trees and colorful bushes inviting students to enjoy the environment with a good book, or a writing notebook. Our staff and students demonstrate school pride by keeping the campus welcoming.

All students participate in the Magnet program. Webster’s integrated science program features intensive studies in physical, earth, and life sciences. Our two science labs offer hands-on, inquiry-based instruction with live specimens, chemicals, microscopes, and dissecting equipment that motivate investigation and experimentation.

Instruction is geared to providing opportunities to discover and explore in order to develop

deeper levels of understanding and knowledge in all content areas. Technology is an important tool in the transition from school to career. We incorporate technology into our school-wide curriculum.

Teachers engage in continuous professional learning and lead professional development at school. We encourage our students to develop a clear belief in self, the understanding that learning is an ongoing process, and the ability to communicate effectively. We work with family and community members to produce strong and independent thinkers.

Parents and community members are encouraged to be involved as volunteers, members of committees, participate as guest readers and attend events. Our partners are the San Diego Natural History Museum, National City Home Town Buffet, Naval Fleet Training Center and Elementary Institute of Science.

Code	Program	Original Budget General Fund		
		All Resources Budget	Unrestricted Budget	Restricted Budget
1000	Instruction	\$ 2,357,994	\$ 1,955,487	\$ 402,507
