

Grade 3

# Call It

Module 6- Fractions and Decimals

Your child is learning about fractions. A fraction is a number that stands for part of something. The denominator tells how many equal parts are in the whole or set. The numerator tells how many of those parts you are talking about. In the fraction  $\frac{1}{4}$ , the numerator is 1 and the denominator is 4.

## Materials:

- Call It Fraction Bars Sheet (can be used to help your child compare fractions)
- Call It Fraction Cards

## Directions:

1. Cut out the Call It Fraction Cards
2. Shuffle the Call It Fraction cards.
3. Deal all of the cards face down so that each player has the same number of cards.
4. Both players turn over one card at the same time.
5. The player with the fraction with the largest value takes the two cards and sets them aside. For example,  $\frac{1}{3}$  is greater than  $\frac{1}{4}$ . The player with  $\frac{1}{3}$  would take both cards.
6. The winner is the player with the most cards after all the cards have been played.

**Note:** The Call It Fraction Bars sheet can be used to help compare the fractions.
