Nursing & Wellness Program
Student Services Office

Dear Parent or Guardian:

To make sure your child is ready for school, a new California law, *Education Code* Section 49452.8, now requires that your child have an oral health assessment (dental check-up) or waiver on file by **May 31st** in either kindergarten or first grade, whichever is his or her first year in public school. Dental assessments completed up to 12 months before your child enters school also meet this requirement. Ask your dentist to complete the required form. The law specifies that the assessment must be done by a **California licensed dentist or other licensed or registered dental health professional**.

Please take the attached Oral Health Assessment/Waiver Request form to the dental office, as it will be needed for your child's check-up. Return completed form to your child's school by May 31st.

The following resources will help you find a dentist and complete this requirement for your child:

1. Medi-Cal/Denti-Cal's toll-free number or Web site can help you find a dentist who takes Denti-cal: 1-800-322-6384; <http://www.denti-cal.ca.gov>
2. Healthy Families' toll free number or Web site can help you find a dentist who takes Healthy Families insurance or to find out if your child can enroll in the program: 1-800-880-5305; <http://www.healthyfamilies.ca.gov/hfhome.asp>
3. For help in enrolling in either Medi-Cal/Denti-Cal or healthy Families you may call the San Diego Maternal, Child and Family Health Services toll free help line at 1-800-675-2229. Listen for the SD-KHAN option.
4. For additional resources to find a provider:
 - a. San Diego Kids Health Assurance Network at 1-800-675-2229; <http://www.co.san-diego.ca.us/sdkhan/>
 - b. 2-1-1 San Diego ((If you are unable to reach 2-1-1 from your cell phone or you are calling from outside San Diego County, please use (858) 300-1211)
 - c. San Diego Dental Society 619-275-0244
 - d. Contact your School Nurse

Remember, if your child has poor dental health, your child is not healthy and ready for school. Here is important advice to help your child stay healthy:

- Take your child to the dentist twice a year.
- Choose healthy foods for the entire family. Fresh foods are usually the healthiest foods.
- Brush teeth at least twice a day with toothpaste that contains fluoride.
- Limit candy and sweet drinks, such as punch or soda. Sweet drinks and candy contain a lot of sugar, which causes cavities and replaces important nutrients in your child's diet. Sweet drinks and candy also contribute to weight problems, which may lead to other diseases, such as Type 2 diabetes. The less candy and sweet drinks, the better!

Baby teeth are very important. They are not just teeth that will fall out. Children need their teeth to eat properly, talk, smile, and feel good about themselves. Children with cavities may have difficulty eating, stop smiling, and have problems paying attention and learning at school. Tooth decay is an infection that does not heal and can be painful if left without treatment. If cavities are not treated children can become sick enough to require emergency room treatment, and their adult teeth may be permanently damaged. Many things influence a child's progress and success in school, including health. Children must be healthy to learn, and children with cavities are not healthy. Cavities are preventable, but they affect more children than any other chronic disease.

Your cooperation with this new law is very much appreciated. If you have questions about the new Oral Health Assessment requirement, please contact your School Nurse or Diane Burye, R.N. at the Nursing and Wellness Program at 858-627-7580.

If you cannot take your child for this required assessment, please indicate the reason for this in Section 3 of the form.

California law requires schools to maintain the privacy of students' health information. Your child's identity will not be associated with any report produced as a result of this requirement.

Sincerely,
Jennifer Gorman, MSN, RNP
Nursing and Wellness Program Manager
