

Batch Printing Issue

When batch printing, some check boxes are not printing on the Present Levels page and Special Factors even though they show on the screen.

Screen display:

AREAS OF NEED:	
Reading:	
<input type="checkbox"/> Is an area of need*	
<input checked="" type="checkbox"/> Is not an area of need	
Written Language:	
<input type="checkbox"/> Is an area of need*	
<input checked="" type="checkbox"/> Is not an area of need	
Math:	
<input type="checkbox"/> Is an area of need*	
<input checked="" type="checkbox"/> Is not an area of need	

Printed page:

AREAS OF NEED:	
Reading:	
<input type="checkbox"/> Is an area of need*	
<input type="checkbox"/> Is not an area of need	
Written Language:	
<input type="checkbox"/> Is an area of need*	
<input type="checkbox"/> Is not an area of need	
Math:	
<input type="checkbox"/> Is an area of need*	
<input type="checkbox"/> Is not an area of need	

(On the Present Levels printout, the boxes indicating “Is not an area of need” are empty. On the Special Factors page, the box does not even show on the printed page.)

To print the form with the boxes checked, open the individual form and select “Save and Print.”

The issue has been reported and the programmers are working to identify what is causing the problem and then will correct it. Although we do not have a timeline for it to be fixed, we are hoping it will be corrected the next time the program gets a software update.
