

Elizabeth Freese Elementary

Arts and Culture Magnet

Mission Statement

Freese Arts and Culture Magnet School endeavors to provide every child with the educational skills needed for future academic and career success. At Freese, Arts and Culture are integrated with academic work to enrich learning and teach students a broader perspective of the world. Multiple measures are used to continually account for student achievement and make adjustments to deliver ever stronger educational programs that lead to greater student achievement.

Vision Statement

- *We strive to attain high academic achievement for all Freese students in all core academic areas.*
- *With parents and community, we help to develop good citizens who will grow into productive, caring members of our society.*
- *We endeavor to immerse Freese students in rich experiences around arts and culture and instill a life-long love and appreciation of arts and culture through exposure, participation and learning.*
- *We promote school/community interaction through multiple partnerships with community members and organizations and we seek to develop deep and lasting relationships with them.*
- *We endeavor to interest our students in arts and cultural activities to the extent that many will seek to enroll in schools and/or classes that focus on the arts in secondary school.*

SMART Goals: How will we mark our progress toward our vision?

- Academic Goal: By June 2009, a minimum of 46% of Freese students will attain proficiency or better (a 7.2% gain) as measured by CST in English Language Arts. The percentage of all 2nd -5th graders will increase from 38.8% to 46%.
- Academic goal: By June 2009, a minimum of 49.3% of Freese students will attain proficiency or better (a 5% gain) as measured by CST in Mathematics. The percentage of all 2nd -5th graders will increase from 44.3% to 49.3%.
- Magnet program goal: By June 2009, 100% of Freese students will complete four 8-week Arts and Culture rotations planned and implemented collaboratively by classroom teachers and visiting artists. This will be measured by completion of joint planning days and completion of the actual activities in the classroom.
- Magnet enrollment goal: By the opening of the new school year, increase the number of students from diverse ethnic backgrounds and geographic areas as measured by enrollment data.
- Other school goal: By the end of the year, multiple contacts for the purpose of strengthening the home/school connection will be made with 100% of Freese Parents as evidenced by sign-in sheets, computer logs, records of handouts, and estimated crowd size for events with no sign in.
