

ZAMORANO FINE ARTS ACADEMY
MARIAN KIM PHELPS, PRINCIPAL

Magnet School Mission, Vision and Goals

School-wide Vision

All Zamorano students will be intrinsically motivated to become independent thinkers and life-long learners. Students will develop an understanding and appreciation for the dynamic language of the arts. Zamorano students will use this knowledge and apply it to the world around them while becoming productive and responsible citizens in our community.

Magnet Mission Statement

Students will develop an understanding and appreciation for the arts. The students will use this knowledge and apply it to the world around them while becoming productive and responsible citizens in our community. While at Zamorano, students will immerse themselves in a multifaceted approach to art as a learnable, visual language. Students will integrate creative expression, cultural and historical heritage, artistic perception, art history, and art criticism. Art will be integrated into all areas of the curriculum with emphases on ceramics, painting, drawing, photography, sculpture and graphic arts.

SMART Goals: How will we mark our progress toward our vision?

- Academic goal 1: By the year 2009, 60% of Zamorano students will be proficient or advanced in English Language Arts (ELA) as measured by the CSTs. Focusing on improving proficiency levels in ELA specifically in reading comprehension.
- Academic goal 2: By the year 2009, 69% of Zamorano students will score proficient or advanced in mathematics as measured by the CSTs. Focusing on improving proficiency levels in math specifically in the number sense and operations strand.
- Magnet program goal: By June 2009 all Zamorano students will be participating in an art curriculum that is integrated throughout the content areas. In addition, all Zamorano students will participate in regular weekly fine arts activities including visual arts projects, ceramic arts, and graphic arts. Fourth and fifth grade students will additionally participate in photographic arts projects and field trips. This will be measured by teacher reflection data, lesson plans, and rotation schedules.
- Magnet enrollment goal: By October 2009 to increase the number of students from diverse ethnic backgrounds and geographic areas. This will be measured by enrollment data.
- Parent Involvement: By 2009 we will have at least 70% parent participation in at least two of the following school-wide events: Multicultural Night, Family Education Night, Back to School Night, Open House, Family Art Night, Beautification Day, Fall Parent Conferences and Spring Parent Conferences. This will be monitored through sign-in sheets for the different events and a class record sheet completed by each teacher.
