

Have you ever wondered how you could make a difference through helping people? Or have you ever considered a profession in the medical industry?

If so, welcome to the School of Community Health and Medical Practices (CHAMPs)

“Excellence is our goal... Failure is not an option!”

We take **PRIDE** in offering high school students a more **PERSONALIZED** education in health and medical science, where they can learn how to make a difference in the medical field of their choice.

With our rigorous college preparatory curriculum that integrates health and medical themes throughout, CHAMPs fosters a culture of excellence, bringing students one step closer to success in

continuing education and future careers.

Additionally, our **ADVISORY** program helps students in achieving both present and future goals.

At CHAMPs, we strive to provide a supportive and personalized environment where students can explore their interests in the health and medical sciences. Students learn to appreciate the value of giving back to the community, receiving the education they need today to become the productive citizens of tomorrow.

Students attending CHAMPs will participate in activities including AP Spanish, AP English, AP US History, Yearbook, Art, Dance, PE, Prom, Homecoming, Athletics, and JROTC with the entire student body of the Crawford High Educational Complex.

CHAMPs electives include:

- Business Environments
- Chemistry of Nutrition
- Computer Applications
- Health Essentials
- Medical Assistant (ROP)
- Medical/Community Health Internships

“Our students learn the value of helping others through the health and medical field.”
