

# School of Science, Connections & Technology (SCT)

**“We are making the scientific and technological connections of tomorrow.”**

**D**iscover the vast secrets and connections within the rapidly progressing worlds of science, health and technology, as you explore the many opportunities at the School of Science, Connections and Technology (SCT).

At SCT, students are engaged in rigorous, stimulating and diverse learning experiences that will prepare them for continuing education and future careers in a growing science-based economy. Through hands-on scientific exploration and cross-disciplinary projects, students will expand their understanding of health, technology and the environment.

In our more personalized educational environment, students can utilize technology, scientific methods, and analytical and creative thinking to demonstrate their deep understanding of significant science-related concepts. Our “San Diego Experience” theme offers real-world experiences such as field trips, job shadows and internships at local science, health and technology-based sites and businesses.

Our students will also be able to share in the full spectrum of sports, extracurricular clubs and ASB programs at Kearny High Educational Complex.

**Electives offered at SCT include:**

- **Computer Applications & Technology**
- **Nursing – Health Essential Applications & Terminology, Medical Assistant, & Certified Nurses Assistant Program**
- **Biotechnology**
- **AP Chemistry**
- **AP Biology**
- **AP Calculus**
- **Marine Science**
- **Global & Environmental Studies**

At SCT, our students will be able to explore their interests as they learn about and express themselves through problem-based learning, interdisciplinary projects, and core and elective content areas. We are creating globally aware leaders of the future in science, health and technology-based fields.
