

Training & Support Bulletin

CALPADS Update:

Since October 5, 2009 we are mandated by the state of California to report student enrollment and demographic information within 2 weeks from the time the student is enrolled at your school.

Every student record with errors means we are out of compliance because we have not report them to the state.

Please correct these errors immediately.

- If you are a school that has zero counts, please congratulate your staff for a job well done.
- If you are a school that only has a few errors left, please congratulate your staff and follow-up on getting the error counts to zero.

For an updated **Error Count Tabulation by School**, [click here](#).

This week's Training!

*** ZANGLE ***

Enrollment
