Construction more than one-third complete at Cherokee Point Elementary School

SAN DIEGO – Construction on the new Cherokee Point Elementary School is more than one-third complete. The new school is scheduled to open in September 2005.

The earth-toned, split-level stucco campus with galvanized metal details will have 32 classrooms, a library, an outdoor amphitheater and a joint-use soccer and baseball field that will flow into a community park. The school will serve students in City Heights and will relieve overcrowding at nearby schools.

The project is led by the Design-Build team of Erickson-Hall and HMC Architects. San Diego City Schools is the project owner.

The new school is funded by Proposition MM, a 1998 bond measure that provides \$1.51 billion toward the \$4 billion of needed repairs and construction at San Diego City Schools.
