Modular library installed at Torrey Pines Elementary

SAN DIEGO – A modular library and classroom building have been installed at Torrey Pines Elementary School. The new buildings are part of a site renovation that includes repairs, painting, technology upgrades and improvements to provide access to the physically disabled.

The \$1.5 million project is scheduled to be completed in February 2004. The general contractor is Cox Construction. The modular building manufacturer is Modtech. The architect is Ruhnau Ruhnau Clarke. Dana Walker is the project manager, Dale Ragusa is the construction manager, Joe Gorak is the project inspector, and Mike Winter is the senior project manager, all of San Diego City Schools.

The project is funded by Proposition MM, the 1998 bond measure that provides \$1.51 billion toward the \$4 billion of needed repairs, replacement and expansion at San Diego City Schools.
