Erickson-Hall Construction

Dave Erickson, President

Proposition MM, the \$1.51 billion bond measure passed by 78 percent of voters in 1998, is funding construction of 12 new and three rebuilt schools and modernization of 161 sites to support student achievement. At Loma Portal Elementary, Proposition MM funded: a new library building; additional instructional support space; lunch court shelter; improved access for the physically disabled; technology infrastructure; and major repairs and renovation, including campus-wide flooring improvements, interior painting, landscaping, restroom facilities, and upgraded fire alarm, HVAC and electrical systems.

**Thank you to the Loma Portal community.
Your support made this project a great success!**
