

YOU CAN DO THAT?

Dr. Smith, with his unique theatrical skills, will create real world scenarios, in which technology can be used to solve problems, organize facts, produce presentations, and create digital stories. You may attend these workshops individually or as a series. The workshop content has been created to meet the needs of elementary and middle school teachers, however high school teachers may also find Dr. Smith's methods useful in their classrooms

- THURSDAY** You Can Do That with PowerPoint? Part 1
2/01/07 4 PM-7PM PowerPoint 1 will give you the skills to turn PowerPoint into an instructional partner in the classroom. Participants will enhance their skills through the creation of curriculum based games, independent student lessons, and discover the multitude of tools that help you create experiences that extend and enrich learning.
- THURSDAY** You Can Do That with PowerPoint? Part 2
2/15/07 4 PM-7PM Take your students into the realm of PowerPoint authoring. This session takes you into the world of Digital Storytelling, Multimedia authoring, and your students' creative imaginations. Completion of PowerPoint 2 will make you a true expert with this Microsoft Office tool.
- THURSDAY** You Can Do That with Word? - Part 1
3/01/07 4 PM-7PM Word is much, much more than a word processor. Word 1 will bring out the writer in you and the creative juices for creating curriculum based graphic novels, and comic strips. Word can also provide a hyper-linking platform to the world in and outside your computer. Be the first teacher in your school who can say, "I can do that with Word."
- THURSDAY** You Can Do That with Word? - Part 2
3/15/07 4 PM-7PM Word loves to play nice with PowerPoint. Create powerful instructional and assessment tools through the marriage of PowerPoint and Word. Work on designing impressive news letters for printing or electronic distribution through the creation of a student publishing company.
- WEDNESDAY** You Can Do That with Excel? - Part 1
3/28/07 4 PM-7PM Once you get to know Excel you will grow to love it. Excel 1 introduces useful features through the construction of grade books, problem solving, calculators, and timelines. You'll also discover techniques to spice up the appearance of your spread sheets and data bases with graphics.
- THURSDAY** You Can Do That with Excel? - Part 2
4/12/07 4 PM-7PM Excel 2 brings to you the power of hyperlinking Excel docs to the world. Discover the magic of mail merging Excel with Word into letters and forms. When you complete Excel 2, you will be an Excel Wizard that everyone on your staff will turn to for your magical touch.

Dr. W.W. Smith, Master Storyteller Extraordinaire
