EXPOSURE

MoPA's Exposure program allows students to learn about photography and related arts during four in-class sessions and one field trip to MoPA. Students engage in discussions and hands-on activities chosen from MoPA's award winning curriculum resource *The Visual Classroom*. The program includes two additional one-on-one visits with the classroom teacher.

The program is available **free of charge** to grades 3-8 at area Title 1 public schools (San Diego Unified and San Diego County), which demonstrate a need for transportation funds and art education. The program is also available for a fee to schools not designated as Title 1.

Reservation and information: 619-238-7559 x229 or outreach@mopa.org

THE CARE PROGRAM

The CARE program (Collaborative Art Resource for Educators) is a unique collaboration between the Museum of Contemporary Art, the San Diego Museum of Art, and MoPA, designed to provide art education to San Diego Title I schools. Based on their individual strengths, the museums have created a comprehensive project curriculum that meets state standards.

An additional, and far-reaching, component is a website resource for teachers and students. Phase 1 of the website www.carearts.org allows teachers to download class materials for grades K-12, find resources for art and photography supplies, and learn about museum education programs.

PHOTOGRAPHY AND FILMMAKING PROGRAMS

SPRING CAMP 2008 - Will be available in February 2008
SUMMER CAMP 2008 - Will be available in March 2008

Explore the art of photography and filmmaking at the Museum of Photographic Arts through our Spring and Summer camps. These hands-on classes provided students with the opportunity to create a movie, become photojournalists, produce photo montages, watch and critique movies, make their own movie and music videos, and take part in many more exciting projects! MoPA welcomes students of all levels of ability and experience.
