

**Fulton School
Technology Night
Tuesday, May 27, 2008
5:30 -7 p.m.
School Auditorium
7055 Skyline Drive, San Diego, 92114
(619) 262-0777**

A special Technology Celebration will be presented at Fulton School featuring the new 30 station Digital Music Lab and Recording Studio. The lab contains 30 iMac workstations and MIDI controllers along with a complete 256 track recording studio.

Feature presentations will include: Student demonstrations of current digital music software. Student produced music CD's and Living Books recorded in the studio will be marketed as a fund raising activity for the Digital Music Lab. Live music performances of recorded CD's will be performed by Fulton students. "Live Jazz" will be featured. Students produced books and publications will be previewed and presented by students.

Student produced movies will be presented. The Kinder / First grade "Keys to Achievement" computer/ MIDI keyboard program housed in the computer lab in room 6 will be featured along with a student produced iMovie of the new Digital Music Lab.

Computer Lab Room 6

Special presentations of online resources will be presented. The Soliloquy Reading Program along with Starfall Books and Tumble Books will present information to parents regarding accessing the Fulton Website to log on to these programs at home. Students can access the websites and work on reading projects at home.
