

# Earn Your Masters in Ed Tech @ Home from SDSU

## Connect with COMET: SDSU's K-12 Educational Technology Cohort

- Want a degree that you can apply immediately in your classroom?
- Would you like to learn from an internationally renowned faculty?

### Join the COMET Program at San Diego State University Cohort Online Masters in Educational Technology

The SDSU EDTEC program has been offering courses online since 1996. We know what we're doing. Our courses are challenging, interesting and practical. You'll learn how to:

- design a solid course, unit or lesson
- integrate podcasts, GPS, blogs, wikis, WebQuests and multimedia into your teaching
- create games and simulations that are both fun and instructionally effective
- design web pages to deliver information to your students and their parents
- evaluate educational programs & materials
- use free online databases to create opportunities for inquiry
- evaluate distance education courses and develop your own
- create compelling videos and guide your students in video

Cohort Online Masters in Educational Technology

### Program Features

- Learn with a community of other lively teachers from around California
- Use video and audio chat to collaborate with your classmates and interact with your professors
- Take just six units a semester for two years
- Hands-on; assignments are project-based. We practice what we preach.
- All courses oriented towards K-12 teaching and California standards
- More cost-effective than any other quality program. Approximately \$1500 per semester for California students.
- Study at home at times convenient to you. You don't have to come to SDSU.
