

What's New in Zangle FrontOffice 2009.2

Effective October 12, 2009 • Version 1.0

The purpose of this document is to explain what is new in Zangle FrontOffice 2009.2.

1. What is new in Academic History?

Application/Report	Modifications/New features
Current/Active GPA/Rank	<ul style="list-style-type: none"> Fixed a problem when selecting students according to GPA range so that results are consistent when choosing the same GPA for the lower or upper limit.
Requirements	<ul style="list-style-type: none"> Fixed a problem when processing multiple students with different rules using the "Use Each Student's Assigned Rule" option. Changed the message that is displayed when the ESC key is pressed when running requirements.
Transcripts	<ul style="list-style-type: none"> Fixed a problem where logo was not always displayed. Fixed a problem when changing the logo and the Cancel button is selected. Added a Tool Tip to the logo bitmap that shows the path to the file name.

2. What is new in Enrollment?

Application/Report	Modifications/New features
Student Editor	<ul style="list-style-type: none"> Changed Ethnicity fields to follow new federal Race/Ethnicity rules. A two-part question is required to collect race and ethnicity information from students. The first question asks whether or not the respondent is Hispanic or Latino. The second question asks the respondent to select one or more races. Changed AKA button to be bold when someone has entered an AKA name.
Remote Withdrawal Transfer	<ul style="list-style-type: none"> Fixed a problem when transferring a student where the address street name contains a single-quote.
Non Student Editor (This application is only visible to users in the Read Only (All Apps) permission set, typically users at the Ed Center.)	<ul style="list-style-type: none"> Changed Ethnicity fields to follow new federal Race/Ethnicity rules. A two-part question is required to collect race and ethnicity information from students. The first question asks whether or not the respondent is Hispanic or Latino. The second question asks the respondent to select one or more races. Changed AKA button to be bold when someone has entered an AKA name.

3. What is new in Scheduling?

Application/Report	Modifications/New features
Master Schedule Editor	<ul style="list-style-type: none">• Fixed a problem when using the Show by Cycle tab and Cycle Days haven't been defined in Track Editor.
Student Schedule Editor	<ul style="list-style-type: none">• Fixed a problem when scheduling students using course requests.
Team Request List & Tally	<ul style="list-style-type: none">• Fixed a problem where the Grade Level was sometimes truncated.
